

# Amulet Hotkey DX1500 & DX1700

Quad display, secure, high-performance thin clients for Dell ThinOS

## Amulet Hotkey DX Thin Clients

Amulet Hotkey DX thin clients provide the **only true thin client solution** (with passive cooling and low power consumption) that can **support quad video** outputs when running Dell ThinOS.

This enables the solution to support 4k UHD resolutions (3840 x 2160), running at 60Hz, delivering a high-performance graphics capability for power users.

## Designed for high-performance, secure remote desktop environments

### High Performance

Intel-based CPUs and support for up to four displays running at 4K

### Built to last

Rugged metal case & designed to operate 24/7

### Low Power

Fanless design, consuming 10W in typical use cases

### Highly Secure

Multiple tamper switches & 802.1x Network Access Control

### Enterprise Management

Seamless integration with Dell WMS Pro for firmware updates

## Personas: Thin client & Dell ThinOS use cases

### Finance & Trading

High-performance endpoint for remote traders

### Media & Entertainment

Editors and VFX artists needing 4K fidelity

### Healthcare

Fanless design, consuming 10W in typical use cases

### Defense & Intelligence

Zero Trust architecture, for classified data

### Government & Control Rooms

Multi-display, secure infrastructure for monitoring
